MAPS GROUP IN THE SHORTLIST OF WINNING BIDDERS OF THE CONSIP TENDER ON DIGITAL HEALTHCARE

The Group further strengthens its role as a key partner in the digital transformation of the National Health Service

Parma, 24 November 2025

Maps S.p.A. (MAPS:IM; IT0005364333), a company listed on Euronext Growth Milan and active in the digital transformation sector, announces that it is in the shortlist of winning bidders for the four application lots of the Consip tender for the Framework Agreement on Digital Healthcare – Healthcare Information Systems and Citizen Services 2.

The Framework Agreement has a duration of 24 months, extendable for an additional 12 months. From an economic standpoint, the total maximum value of the four application lots amounts to €748,800,000, including the statutory adjustments and the additional 20% extension provided for in the Agreement.

Resources will be allocated 50% through direct awards, assigned in ranking order to the awardees of the lots, and 50% through competitive tendering procedures reserved for the participants in the Framework Agreement. The contracts resulting from direct awards and competitive tenders will each have a duration of 48 months from the date of execution.

Maps Healthcare participated as a member of the Temporary Grouping of Enterprises (RTI) led by Engineering S.p.A., which achieved:

- 1st place in application lots 1, 3, and 4
- 3rd place in application lot 2

In these areas, Maps Healthcare will provide the National Health Service with its expertise in the digitalization of patient-facility interactions, healthcare data governance, and decision-support systems, contributing to the modernization of information infrastructures and to improving the quality of services offered to citizens.

Marco Ciscato, Executive Chairman of Maps Group, commented: *"We are proud to have been confirmed among the awardees shortlisted in the Consip tender dedicated to digital healthcare. This result recognizes the robustness of our expertise and the quality of the solutions we have been providing to the National Health Service for years. The digitalization of booking, reception, and patient management processes, together with the enhancement of health data, are key elements for a more efficient and integrated healthcare system that is closer to the needs of citizens. Our contribution to the RTI led by Engineering confirms Maps Group's role as a reliable partner in the digital transformation of Italian healthcare"*.
