TRANSFORMING COMPANIES INTO ACTIVE RESOURCES FOR THE GRID

Maps Group also takes part in the FLEXIA project promoted by MASE

Parma, 28 January 2025

Maps S.p.A. (MAPS:IM; IT0005364333), a company listed on Euronext Growth Milan and operating in the digital transformation sector, announces its participation in the FLEXIA project, funded by the Italian Ministry of the Environment and Energy Security (MASE), dedicated to developing a new frontier in industrial energy flexibility.

In a context where the increasing integration of renewable sources and the electrification of consumption make grid management ever more critical, FLEXIA was created to unlock the largely untapped potential of the industrial sector, transforming companies from passive consumers into active players in the stability of the electricity system, through the aggregation and digital orchestration of energy consumption and production.

To achieve this, FLEXIA aims to develop an interoperable digital platform capable of integrating and aggregating different energy management systems, enabling multiple industries to intelligently coordinate their energy profiles and provide “flexibility” to the grid.

In this context, Maps Group will contribute its know-how in developing software platforms and digital solutions for the energy sector, supporting the design and implementation of the enabling elements for interoperability and the digital aggregation of flexibility services. Specifically, Maps Group will deliver a software platform dedicated to BSPs (Balancing Service Providers): operators that act as aggregators, manage portfolios of energy assets (renewable and conventional), and provide flexibility and dispatching services, helping to ensure the balance of the electricity grid.

The project’s strength is ensured by a consortium with digital, engineering and scientific expertise which, in addition to Maps S.p.A. (as lead partner), includes: Consorzio Elettrico di Storo (CEDIS), Fondazione Bruno Kessler (FBK), HYDROALP S.r.l., INNOVA S.r.l. and Rina Consulting S.p.A.

Gian Luca Cattani, Innovation & Development Director at Maps Group, comments: *“FLEXIA is not just about technology: it is a new way of thinking about the relationship between industry and local communities. Thanks to MASE’s support, we are demonstrating that the digital aggregation of flexibility can turn industrial sites into active resources for the grid, while also generating tangible benefits for companies—such as efficiency and new value opportunities—and contributing to the resilience and sustainability of the national electricity system. The goal is to build a replicable model capable of accelerating the integration of renewables and supporting the energy transition of industrial districts.”*

MAPS GROUP

Maps S.p.A., founded in 2002 and listed on the Euronext Growth Milan segment of Borsa Italiana since 2019, heads Maps Group, a group comprising five companies and over 300 employees, headquartered in Parma and operating through 13 offices across Italy.

Active in the field of Digital Transformation, the Group focuses on the Healthcare and Energy sectors, supporting its clients in extracting value from data to make better decisions and innovate their operating models.

Through Maps Healthcare S.p.A., the Group addresses key trends in Patient Experience and Data-Driven Governance, while also providing Diagnostic and Hospital Information Systems to both public and private entities.

Through Maps Energy S.r.l., the Group supports the ongoing energy transition by developing integrated, data-driven software solutions for energy monitoring, control and management in the areas of energy sustainability, energy efficiency and Energy Communities.

The Group also markets solutions designed to measure the achievement of corporate and staff objectives, manage risks and share non-financial performance, as well as offering a portfolio of cross-market products dedicated to omnichannel solutions and document management for suppliers.

In addition, Maps Group operates within an Open Innovation framework to meet specific needs through tailored products or solutions developed for Best-in-Class clients in their respective markets.

In 2024, Maps Group reported consolidated revenues of €29.8 million (+9% vs 2023), EBITDA of €7.4 million (+48% vs 2023), corresponding to an EBITDA margin of 25%, and a Net Financial Position of €7.0 million, showing a significant improvement compared to €12.5 million in 2023.

Reflecting the strength of its business model, focused on the development of highly scalable software products, revenues generated by products currently account for 87% of consolidated revenues (€25.3 million in 2024), while recurring revenues represent 41% of consolidated revenues (€11.8 million in 2024).

Alongside organic growth, the Group has pursued an important mergers and acquisitions strategy, including IG Consulting S.r.l. (2011), Artexe S.p.A. (2018), Royalty S.r.l. (2019), SCS Computers S.r.l. (2020), IASI S.r.l. (2021), I-Tel S.r.l. (2022), Energenius S.r.l. (2022) and Ellysse S.r.l. (2025).

Finally, Maps Group has reorganised its corporate structure by changing the corporate name of Artexe S.p.A. to Maps Healthcare S.p.A. and that of Energenius S.r.l. to Maps Energy S.r.l., to strengthen the alignment of its solutions with their respective target markets.
